

# Green Art Camp

2011

## Kinetic Art & Wind Energy!

Space is limited - sign up now!

Ohio Arts Council  
A STATE AGENCY  
THAT SUPPORTS PUBLIC  
PROGRAMS IN THE ARTS

### What is Green Art?

Art that is designed to raise public awareness about environmental issues. Each year at Green Art Camp, we focus on projects with an environmental theme. By combining art with a little science & technology, we create a fun, interesting, & wonderful experience sure to be enjoyed by all who participate!

### This year at Green Art Camp:

This year's theme is "Kinetic Art & Wind Energy." Participants ages 8 to 14 will learn ways in which the wind is used to create electricity, and the benefits it provides to our environment. Students will create both individual and collaborative works of kinetic art (art that moves)! In addition, students will enjoy exploring the grounds of The 577 Foundation and visiting the wind turbines at the Bowling Green wind farm.

#### **Scheduled activities will include:**

- Creating a cool mobile!
- Constructing an abstract pinwheel sculpture!
- Collaborating (working together) to build a wind-powered machine!
- Daily snacks and hikes at The 577 Foundation!
- A field trip to the Wind Turbines in Bowling Green!

---
